Property Address _____

**Lead Information, Inspections, Clearance Testing, Disclosure,
Lead Remediation and Ongoing Lead Hazard Monitoring**

The Lead-Based Hazard Reduction Program requires that lead hazard evaluation and remediation activities be carried out on homes constructed prior to 1978 that contain lead-based paint hazards in order to participate in the program and to receive assistance.

I understand that the City of Greensboro will undertake lead-based paint testing on my home. If the test results reveal lead-based paint hazards, I understand that my scope of work will include the work necessary to make my home lead safe. Lead safe means that all lead-based paint hazards in my home have been stabilized and that my home passed a certified lead clearance test upon completion of work. For my home to remain lead safe, I understand that I must properly maintain the treated areas in the future and monitor the non-treated areas containing lead that were not identified as a present hazard. I will receive a copy of the results of the lead hazard reduction and clearance test within 15 days of their completion.

I have received a copy of the pamphlet "Protect Your Family From Lead in Your Home".

The interviewer has discussed the hazards of lead based paint with me and we have reviewed each item listed above.

The applicant(s)/owner(s) agrees that the City of Greensboro will do an inspection of the premises to determine the presence of lead-based paint hazards. Performing the inspection does not obligate the City of Greensboro to award a lead remediation grant.

The applicant(s)/owner(s) will be informed of the results of the inspection. I understand that the results of the lead-based paint inspection and clearance test will be registered with the Department of Health and Human Services - Health Hazards Control Unit and will be a permanent part of my home's legal records. The applicant(s)/owner(s) is(are) required to disclose the inspection results and/or clearance results in the home in the event of future sale or lease of the property.

The applicant(s)/owner(s) further agrees that the City of Greensboro will not be held liable for any damages that may occur as a result of said inspection and subsequent disclosures.

For applicant(s)/owner(s) protection, please list any known allergies or respiratory conditions of family members or others in the household. Please provide details:

Property Address _____

PENALTY FOR FALSE OR FRAUDULENT STATEMENT: Whoever knowingly and willfully falsifies or makes any false, fictitious or fraudulent statement or representations or makes or uses any false writing or document knowing the same to contain any false, fictitious or fraudulent statement or entry, shall be prosecuted as provided by the laws of the State of North Carolina.

EMERGENCY REPAIRS: The Department of Housing and Urban Development (HUD) requires that any emergency repairs be taken care of in order to receive lead hazard control grant assistance. If it is determined that your property requires emergency repairs during the home inspection and emergency repairs are included in your work write-up, you will be enrolled in the Emergency Repair Program. Dependent on applicant household income, the Emergency Repair Program is a forgivable loan OR a low-interest deferred loan. Applicants with household income at or below 50% of the area median receive forgivable emergency repair loans. Applicants with household incomes above 50% of the area median receive low-interest deferred loans. In either case, a lien is placed on the property by a note and deed of trust. Under some circumstances, forgivable loans are repayable. In all cases, deferred loans are repayable. No loan subordinations by the City are guaranteed. For additional information and details about Emergency Repair loans and repayment, Program Guidelines are available upon request.

SITE CONTAMINATION: The homeowner agrees that when lead work is performed on the homeowner's property and the property is prepared for clearance, the homeowner or other household member will not enter the property prior to clearance. Entering the property prior to clearance may contaminate the site. If either enters the property prior to clearance testing and the property does not pass clearance, then the homeowner is responsible for the cost of re-clearance.

The signature(s) below signify that all information contained in this application is true and complete and that Emergency Repair Program requirement and guidelines, Lead Information statement, and Site Contamination statement are understood and agreeable.
